

Quillmere Limited Warranty Guide

Effective January 1, 2026

1. Warranty Overview

This guide explains the Quillmere Limited Warranty for products purchased new from Quillmere or an authorized retailer in the United States or Canada.

- Major appliances (refrigerators, dishwashers, washers, dryers): 2 years parts and labor.
- Small appliances (air purifiers, blenders, coffee makers): 1 year parts and labor.
- Refrigerator compressor and sealed refrigeration system: 10 years, parts only. Labor for compressor repairs is covered only during the first 2 years.

Coverage begins on the original date of purchase. Keep your receipt or order confirmation; proof of purchase is required for every claim.

Registration bonus: register your product at quillmere.example/register within 60 days of purchase and the standard parts-and-labor period is extended by 6 months. The bonus does not apply to compressor coverage or to refurbished products.

2. What Is Covered

The warranty covers defects in materials and workmanship under normal household use.

In-home service: for major appliances, a technician visits your home at no charge if you live within 75 miles of an authorized service center. Beyond 75 miles, a travel fee of \$1.50 per mile applies to the distance over 75 miles.

Small appliances are serviced by mail. Quillmere provides a prepaid shipping label, and repairs are completed within 10 business days of receipt.

Replacement parts may be new or factory-refurbished. A part replaced under warranty is covered for 90 days or for the remainder of the original warranty, whichever is longer.

3. What Is Not Covered

- Cosmetic damage such as scratches, dents, or discoloration that does not affect operation.
- Consumable items, including water filters, air purifier filter cartridges, light bulbs, and batteries.
- Damage caused by improper installation, power surges, floods, or fire.
- Products used for commercial or rental purposes.
- Products with a removed or altered serial number.
- Products used outside the United States or Canada.

Parts sold by third-party sellers: the water inlet valve kit ZX-4410, sold by third-party marketplace sellers, is not approved by Quillmere. The ZX-4410 kit itself, and any damage it causes, are excluded from coverage. The genuine Quillmere water inlet valve, part number ZX-4401, is fully covered when installed by an authorized technician.

4. How to File a Claim

File a claim within 30 days of discovering a defect.

- 1 Find your model and serial number. On refrigerators, the label is inside the main door frame on the left side. On dishwashers, it is on the edge of the door. On air purifiers, it is on the back panel below the power cord.
- 2 Submit a claim at claims.quillmere.example or call 1-800-555-0142.
- 3 Upload proof of purchase and at least two photos of the problem.
- 4 For major appliances, a technician is scheduled within 5 business days.

Quillmere sends a claim decision by email within 10 business days of receiving a complete claim.

5. Repairs, Replacements, and Refunds

If the same defect cannot be fixed after 3 repair attempts, Quillmere will replace the product with the same or a comparable model, or refund the purchase price.

Refunds are issued to the original payment method within 14 business days of approval. Customers in Canada are refunded in Canadian dollars.

A replacement product is covered for the remainder of the original product's warranty, or 1 year, whichever is longer.

Escalations: if you disagree with a claim decision, email warranty-escalations@quillmere.example within 60 days of the decision. A senior specialist responds within 7 business days.
